

THERMOFOAM

LOW PRESSURE POLYURETHANE FOAM SEALANT

ThermOfoam is a low pressure one-component polyurethane foam sealant that is a moisture-cured, multipurpose sealant designed to seal and fill small cracks and voids, creating a tight barrier against noise, moisture and air infiltration.

Compared to standard cartridge type sealants, ThermOfoam polyurethane foam sealants have excellent adhesion and expansion characteristics ensuring a complete and permanent air tight seal. Polyurethane foam sealants result in less waste on small jobs while having an economic impact on large jobs.

ThermOfoam Sealants are available in a variety of sizes and can be dispensed with a straw applicator or a foam dispensing unit.

PRODUCT USES

- Sealing around HVAC Vents and Pipes
- Sealing Through the Wall Penetrations
- Sealing Insulation Board Joints
- Sealing Electrical Outlets
- Sealing Electrical Openings
- Sealing Plumbing Penetrations
- Sealing Through Stud Penetrations
- Sealing Baseplates
- Sealing Can Lights
- Air Sealing Attic
